Choice Series

- Ground in Sheffield by skilled craftsmen
- Fibre-feel handle for excellent grip
- Lifetime guarantee

We are so confident that these are the sharpest knives your customers will ever use, that we will refund their purchase price if they do not agree!

Made in Sheffield, England by skilled craftsmen to quality standards established over generations, these knives have blades which are hollow ground from razor blade quality steel for optimum performance.

The polypropylene handle is directly moulded onto the blade and has a ribbed area to provide a safe, secure grip.

Range consists:

12 speciality knives, plus a carving fork and sharpening steel.

taylor's  
eye witness since 1838

Taylor's Eye Witness was founded by John Taylor in the early part of the 19th Century. They have stood the test of time through an unrelenting dedication to quality, service and good old fashioned technical know-how in the design and production of kitchen knives and scissors. What they don't know about knives isn't worth knowing!
